

Organic Compost

Product: CP-05

Ingredient

Nitrogen: ~1%

Phosphorous: ~1%

Potassium: ~1%

Organic Matter: >20%

C/N Ratio: <25

pH: 7-9

Total Bacterial Count > 4.0*10⁷

Direction of Use

- Oil Palm : 5-8kg/tree, frequency: twice per year
- Paddy field: 2,000kg/ekar, frequency: every season
- Fruit tree: 5-8kg/tree, frequency: twice per year
- Vegetable: 2,000kg/ekar, frequency: 2-4 times per year

Features

- Suitable for all agricultural and horticulture plant
- Improve water retention, most suitable for sand soil
- Stimulate microbe growth & population
- Mild alkaline base that becomes excellent soil conditioner
- Increase biological activities
- Increase fertility
- Improve soil spectrum
- Improve crop yield and quality

Biological Benefit

- The CP-05 biologically simulates the plant and the activities of micro-organism.
- The CP-05 is oil palm base compost, no animal manure or human waste added.
- CP-05 manufacture via non-toxic process.
- Stimulate plant enzymes and increase their production as an organic catalyst in many biological processes.
- Stimulate growth and proliferation of desirable micro-organisms in soil.
- Enhance plant natural resistance against disease and pest.
- Stimulate plant growth by accelerating cell division.
- Increase the rate of development in root systems and increasing the yield of dry matter.
- Increase the quality of yield improvement and physical appearance and nutritional value.

Caution:

Maybe harmful if swallowed. Do not digest. Keep away from children and pets. Store in cool and air ventilation conditions.

Test Result

More feeder root after add in 15% Organic Compost **CP-05**
